

# HAULERMAN

---

Safety, Efficiency & Quality

# Introduction

When looking at statistics, injuries related to handling heavy loads cause real economic and personal damage globally.

Back problems caused by lifting heavy loads increases work absence, thus decrease productivity and raises costs

There was a real need for an innovative lifting solution for moving heavy loads.

Our solution is a wirelessly controlled linear lift arm which can be easily and safely mounted to the back of your van.

Haulerman eases handling heavy loads, raises productivity, enhances safety, and decreases costs.

## LIFTING SOLUTION EXAMPLES:

S130M

- Manually lift up to 130 kg.
- Easily maneuver any item.
- The perfect partner for random lifts.

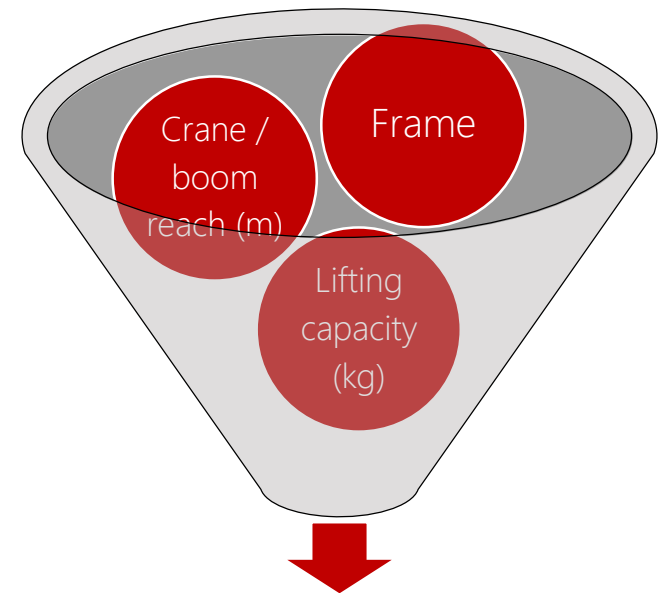

S250

- Utilize electricity and lift up to 250 kg.
- Necessary addition for maintenance vehicles.
- Effective tool for handling heavy items on daily basis.

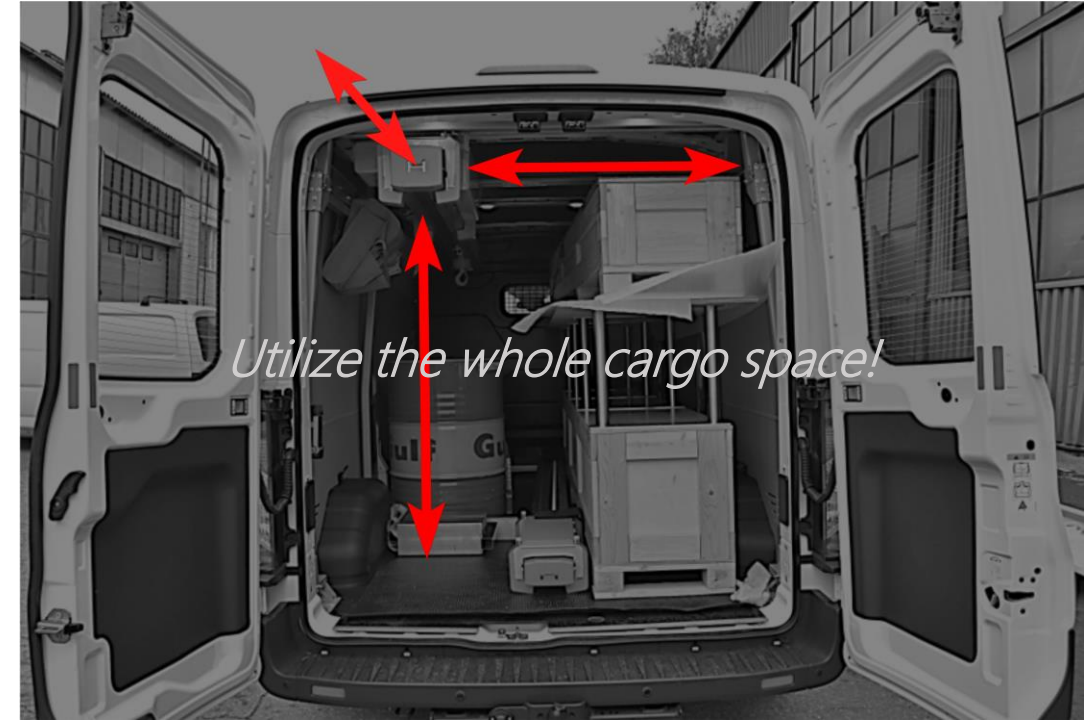

M500

- Haulerman flagship lifts up to 500 kg.
- Lifting possibilities are endless.
- Valuable tool for on-site maintenance and repairs.

***TAILORED LIFTING SOLUTION!***

*Utilize the whole cargo space!*

# ACCESSORIES

## Drum Lifter

- Oil drums are heavy and hard to move, but with our drum lifter, you can manage them safely and efficiently
- Compact and tough design which is easy on the eye.

## Pallet Lifter

- With the Haulerman pallet lifter you are able to load or unload your van without forklift
- The lifter is foldable, so you can simply storage it to the back of your van.

## Cable reel lifter

- Simple yet effective tool for safe handling of cable reels.
- When used with the Haulerman crane you can easily wind out cable from the reel.

## Box lifter

- Loading and unloading of boxes made simple with the Haulerman box lifter.
- The tool opens automatically when the load is lowered on the ground.
